

The True Science CD and The Christian Science Evangelism Videos.

Dear FAMILY and Friends,

[Go Back] [End]
Printed: 7/4/2012

I have discovered some real nice videos that cover science in a new truthful light. Since you and your children have likely been government school educated, that education has been deficient. These videos demonstrate what schools should have been teaching. I thought this CD would make it easier to see and share with your family and friends. The video series is entitled **Creation Science Evangelism (CSE)** by **Dr. Kent Hovind**. Video #1 is called **Age Of The Earth**. Video #2 is called **Garden Of Eden**. Each one is 2 hours long. Video abstracts and links for all 7 videos in the series are [here](#). (Update 1/11/11 ALL Videos can be viewed and controlled with a progress bar adjustment in a browser on the internet - see <http://hisways.org/steward/TrueScienceCD/>)

This CD (see [index](#).) is completely **self-contained** so that the 1st two videos can be viewed with either of the video players provided which eliminates: cookies, Local Shared Objects i.e. Flash tracking cookies or the installation of any plugins. The **VLC-0.8.6** player is for older Windows computers and the **VLC-1.1.2** is for newer computers. Both of them work on my **WinXP** and **Win7**. The **VLC-1.1.2** is nicer for teaching because you can click on the progress bar **ahead** of the arrow and easily advance the video. For example, suppose you taught the video in 30 minute segments, you can re-start the video and easily jump to the 30, 60, or 90 minute mark by clicking the progress bar. (On **Unix** or **Linux** computers, a browser can be used to go to the root directory of the CD to open these [CoverLetter.html](#) , [TrueScience.html](#) or online [index.html](#) pages or/and use the **gxine 0.5.9 media player** (File | Open) to play the videos with the **.flv** extension.)

The CD automatically asks to start and will open a splash menu where you can run links to open the video players with the default play list. The play list permits one to easily select either video to view. When switching videos using the play list button, the switchover looks better from the default startup size rather than from the "F11" full screen size. If these CSE videos are encouraging and you would like to show the videos to a group, the [CSE web site](#) has **DVD's** for sale which can be viewed on a TV and controlled with a remote control. In lieu of other options, this CD is free to use and copy, unedited, and free to distribute as long as you do not charge for the CD in any way. (This is a [CSE requirement](#) for freely copying their videos.)

Regarding creation theory, consider this word of grace: *And Jesus said unto him, Forbid [him] not: for he that is not against us is for us.* [Luke 9:50](#) (KJV).

Besides Truth In Science and Truth In Education, additional motivations for this CD and for web links to other resources and options (including: spiritual, parental, ministerial and public ed.,) are contained in the [CD-Pastor.html](#) page and the [CD-Legislator.html](#) page.

Sincerely yours,

[Top]

Friend, please [make a copy](#) of this CD for your family and friends. Then if possible make one for your Pastor, Teacher, School Board or/and Legislator. Tell them you agree with these videos and you want religious relief from The Evolution Religion for the children, the parents and your community. Ask them for relief under the principles of: conscientious objection, intellectual freedom, equal access to state statues that demand truth and accuracy in textbooks. Ask them to put Creation Science on equal classroom footing with the proselytizing Evolution Religion.
